Preventative Maintenance Checklist

Make/Model _____
Serial # _____
Unit # _____
Date _____
Hour Meter _____

Protect your investment. Improve performance. Prevent downtime.

Daily Checklist (Before Each Use)

- ☐ Check fluid levels (engine oil, coolant, hydraulic fluid)
- ☐ Inspect for visible leaks under and around equipment
- ☐ Walk-around inspection for damage or wear
- ☐ Check tire or track condition and pressure/tension
- ☐ Confirm attachments are secure and functioning
- ☐ Check gauges and warning lights when starting

Weekly Checklist

- ☐ Grease all necessary fittings and joints
- ☐ Inspect belts, hoses, and filters for cracks or wear
- ☐ Test battery voltage and inspect terminals for corrosion
- ☐ Clean or replace air filters (as needed)
- ☐ Drain water from fuel/water separator (if applicable)
- ☐ Check hydraulic hoses for damage or bulging
- ☐ Inspect and tighten loose bolts and fasteners

Monthly Checklist

- ☐ Inspect brakes and adjust if needed
- ☐ Check and clean radiator and cooling system
- ☐ Inspect undercarriage or suspension components
- ☐ Inspect and clean electrical connections
- ☐ Review service hours - plan for next oil/filter change
- ☐ Test all controls and functions thoroughly

Quarterly / Based on Manufacturer Schedule

- ☐ Change engine oil and filters
- ☐ Replace fuel filters
- ☐ Flush and replace coolant (if due)
- ☐ Perform full hydraulic system check
- ☐ Inspect drivetrain and transmission
- ☐ Perform diagnostic scan (optional)
